

THE RACES.

OPENING OF THE ST. LOUIS SPRING MEETING THIS AFTERNOON.

President Green Has a Word to Say About the Bookmakers—The Events and the Betting To-Day—Monday's Programme—Gossip About the Horses and Horsemen.

OMMENCING this afternoon at 1:30 o'clock St. Louis will be treated to the best spring meeting she has ever had since the big track at the Fair Grounds was built. The streets this morning manifested symptoms that a big event is going on in the city, and the crowds of visitors who came specially to attend the races is larger than it has been for some years. The hotels are crowded, and one in particular did not have a single empty room when a horseman, who had arrived late, applied for accommodations.

Pools on the races were sold last night at the Southern Hotel, and the entries were "cribbed" by the bookmakers who sold pools upon the events of the morning.

THE BOOKMAKERS PLEASERED.

The bookmakers who came over from Louisville to bet at the track here were visibly agitated last evening when they applied for badges admitting them to the track without charge and were refused by President Green. The "bookies" expressed themselves in somewhat forbidding terms over the matter, but still the badges were refused, and they will be compelled to pay their way into the park just as though they were made of the same clay as the people who bet with them.

Speaking of the matter to-day Mr. Green said: "The bookmakers were somewhat miffed over the refusal to give them free tickets and barked. Well, let them kick. I am prepared to run with them or without them, just as suits their notion. If the bookmakers think that I have anything against them personally they are entirely wrong. At the last meeting of the Turf Congress every member present pledged himself not to give the bookmakers badges in the future, and in refusing I am simply sustaining my word of honor which I gave to the Congress. Each bookmaker demands his badge for himself and his assistants."

MONDAY'S PROGRAMME.

Four races—The first race—the Southern Hotel—are promised for Monday, the second day of the meeting. The program for Monday will be as follows:

First race—Selling—Prize, \$100 to second and \$50 to third; horses entered to be paid for \$3,000 to carry weight for age; then one pound extra for each pound over weight, up to \$100 to \$1,000, then three pounds for each \$100 less; seven furlongs.

Second race—Purse, \$500, of which \$100 to second, \$50 to third; for maiden three-year-olds; five pounds above the scale; sex allowances; one mile.

Third race—Manufacturers' purse, \$600, of which \$100 to second, \$50 to third; horses whose winnings this year aggregate \$1,000, not to carry five pounds extra; horses that have not won this year allowed seven pounds. Maiden fifteen pounds; one mile and one-sixteenth.

THE BETTING.

The betting on playbills this morning at the pool-rooms was lively. In the Derby Falcon was made the favorite. So little is known about this black colt of Haggins's that he was not even mentioned in the playbills. No information about his possibilities. Alexandria came next in the books, with Long Bell third.

The betting, taken from the board of one of the rooms, was as follows:

First race—1 1/2 miles—Falcon, 7-1; Prather, 7-1; Aristi, 8-1; Bon Fire, 15-1; Orderly, 4-1.

Second race, 1 mile—Trumpeter, 10-1; Judge Cady, 4-1; Fraud, 4-1; Moonlight, 5-1; Chan-cellor, 7-1; Derby, 5-2; Del Norte, 5-1.

The third race—Hunt, 5-1; Utter, 4-1; Long Bell, 2-1; Falcon, 10-1; Ed Mack, 6-1; Alexandra, 5-2; Col. Zeb Ward, 8-1.

Fourth race—Purse, \$500, of which \$100 to second, \$50 to third; for maiden three-year-olds; five pounds above the scale; sex allowances; one mile.

Fifth race—Manufacturers' purse, \$600, of which \$100 to second, \$50 to third; horses whose winnings this year aggregate \$1,000, not to carry five pounds extra; horses that have not won this year allowed seven pounds. Maiden fifteen pounds; one mile and one-sixteenth.

THE COURSE.

A Splendid Day and a Good Crowd—The Track Heavy.

By Telegraph to the Post-DISPATCH.

RACE TRACK, 2:30 p.m.—The spring meeting of the St. Louis Jockey Club opened to-day with fair weather and a very good attendance. The recent heavy rains had converted the track into mud, but the sun and the good rain and harrowing was also brought into play, and when the bell tapped the track, while the race was still slow, except of the inside, where the wet still was in possession. The judges were Messrs. Charles Green, John Sculini and L. M. Russ. Robert Fiske acted as starter.

O'Rourke Wins the First Race.

By Telegraph to the Post-DISPATCH.

RACE TRACK, 2:30 p.m.—The first race, seven furlongs, had seven starters. The betting and starters were as follows: Orderly, 6-5; Iris, Pat, 5-2; to; Federal, 5-1; to; Glance, 15-1; Prather, 10-1; Aristi, 35-1; to; Clouse, 15-1; to; Federal, 10-1; Unique, 10-1; Surprise, 7-1.

NOTES OF THE MEETING.

Several of the horses, now at Latonia, will quit running next week and will be shipped over to St. Louis.

Mr. Ben H. Bruce, official secretary of the meeting, has a few words to say. He says the St. Louis Derby starters are as good a lot as the Latonia.

Withers said last night that barring Falcon, Long Bell, and a colt on the Derby Falcon, he said, was to him an unknown quantity.

The entries in the Latonia Derby this morning—Long Bell, Chevalier, Galilee, Castaway, Los Angeles and White, Galilee, of course, was the favorite.

WARM WEATHER.

“To-day seems to be unusually warm,” said Lieut. Watkins of the Signal Office, “but I do not believe it lies in the absolute temperature, but in the humidity. It is quite warm here to-day and that is not always warm. There seems to be an oppressive atmosphere.” To-morrow will not be very warm, but it will be somewhat warmer. There is some sunshiny weather along the coast these days, Jamesonville and other Southern cities reported to-day to be quite warm. St. Louis was 80 at the same hour. The records show that last year the heat was so intense that the thermometer reached 80 before night, started at 74 at 6 a.m.

Mr. and Mrs. James M. Carpenter will soon depart for Europe. They are leaving to make their intention of visiting the Holy Land before their return home.

THE FEDERAL COURTS.

An Opinion in the Gratiot Street Side-Track Case—A Man in Trouble—Legal Notes.

Judge Thayer rendered a decision this afternoon in the Federal Court over-ruling a demurrae directed to the answer of the Missouri Pacific Railroad Company in its suit of D. M. Osborne & Co. The Court holds that the abutting property owner is not entitled to the relief of a court of equity for the purpose of enjoining the operation of a side track on Gratiot street, and that the railroad company must seek their remedy at law for damages sustained. The railroad company is acting under a legislative and municipal license and the franchise is valid.

John Boland, mate of the steamer Pittsburg, was brought before United States Commissioner, G. W. Whaling, on charges of shooting Gus Stevenson, a deck-hand, in the arm. He pleaded guilty and was sentenced to the District Court in the Western District of Wisconsin on December 2nd.

The preliminary examination in the case of W. H. Marshall, charged with sending obscene matter through the mail, was continued to-day until after 12 o'clock. The hearing was before United States Commissioner, Crawford next Thursday afternoon.

A PAINTER KILLED.

Three Workmen Hurt by Falls From Building.

At 11 o'clock this morning, while painting the Winkler brewery at Seventeenth and Market streets, Wm. Devan fell to the ground from a point 4 feet above the pavement on the Market street side of the building. The rope which was sustaining the ladder on which he stood broke. He fell upon his left side and received serious injuries. He was taken to the City Dispensary, where Dr. Jacobson found seven broken ribs, internal organs ruptured, nose broken and a wheel of his bicycle cut in two. The wheel was broken, but he otherwise was hurt. The doctor sent him to the City Dispensary a few minutes after his admission to the Hospital. He had learned of his injury, and when told he had been taken to the City Hospital immediately set out for the same.

He was not told of his death. Beside his wife Devan leaves one child. He resided at his home at 1215 Division street.

AOD—CARBON'S MISTER.

Pat Timlin, a hod-carrier employed by the new Odd Fellows building, Ninth and Olive streets, fell from the second story door frame this morning. He landed on the small of his back, receiving serious injuries. He was attended by Dr. McCormick and sent to the Sisters' Hospital on Grand Avenue.

Joseph Miles, a laborer employed in the construction of the new Odd Fellows and Grand avenues, fell from a ladder this noon and was seriously injured internally. He was taken to the Sisters' Hospital on Grand Avenue.

JOSEPH MILES.

The first race—the Purse, \$500, of which \$100 to second, \$50 to third; for maiden three-year-olds; five pounds above the scale; sex allowances; one mile.

Fourth race—Purse, \$500, of which \$100 to second, \$50 to third; for maiden three-year-olds; five pounds above the scale; sex allowances; one mile.

Fifth race—Manufacturers' purse, \$600, of which \$100 to second, \$50 to third; horses whose winnings this year aggregate \$1,000, not to carry five pounds extra; horses that have not won this year allowed seven pounds. Maiden fifteen pounds; one mile and one-sixteenth.

SMOTHER THE SMOKE.

MORE TESTIMONY TAKEN BY THE HOUSE OF DELEGATES COMMITTEE.

Advocates of the Ordinance and Objectors to It—Giles E. Filley Tells What He Knows About Smoke-Preventing—An Engineer Floored on ‘Perfect Combustion’—Fielding Mansfield on Prejudices—Prof. White Tries to Encourage His Two Opinions—A Springfield Device.

Yesterday afternoon the Committee on Police and Work-house of the House of Delegates met to hear objections to the ordinance for the abatement of the smoke nuisance, which is now before that committee for consideration.

There were present the following Delegates, members of the committee:

CHARLES D. KENNAN of 1201 North Seventh street.

LOUIS SKERLICH of 1189 Franklin Avenue. DEDREICH NORDEN of 1245 Gratiot street. E. Boileau was the first. He was not an objector. He favored the ordinance, and had a good device for the prevention of smoke that was in actual operation in several factories in St. Louis. He had placed his device under the boilers at the Green- creek brewery at Second Carondelet and Lafayette avenues, and had been told that the saving in coal in one month there was \$216. Mr. Boileau read from Thursday's Post-Dispatch the statements of Prof. C. F. White before the Stationary Engineers' Society, and the same gentleman's certificate of the good results obtained by Mr. Boileau's device in the increase of power and decrease of smoke.

GILES F. FILLEY, who was present, was asked his views. He said: "I believe that smoke can be prevented." I have believed that for more than thirty years and have made many experiments to reduce the fuel waste. I do not think that all the smoke can be done away with. So long as we burn coal there will be some smoke, but by a proper system of firing and the use of a smoke-preventing device a greater part of the smoke can be done away with. At our foundry we have used a device for three or four years to our entire satisfaction. When we put it in we made some calculations as to the saving in fuel, and became convinced then that we saved as much as 15 per cent of the fuel. We are still using it with great success."

"Why would we use it without an ordinance?" asked Chairman Keenan.

"Certainly, I do not need to be compelled to save money," Mr. Filley replied.

"What's that I can't understand," the chairman said. "As these gentlemen say, saving of fuel results upon preventing the smoke why will not manufacturers put in these devices without an ordinance? Why must they be compelled by an ordinance to look out for their own pocketbooks?"

"That I can't tell," said Mr. Filley. "I am sure we are better off with an ordinance passed. I am here out of curiosity. I have no interest in the matter but the interest of a citizen."

N. HAHN, representing a preventing device, said he wanted to combat the proposition that had been made that there were no devices that could prevent the emission of dense volumes of smoke from furnaces.

A meeting for young men will be held at the Down-Town Branch, Y. M. C. A., 205 North Broadway, led by J. G. Kessler, Secretary of the Young Men's Christian Association.

A meeting for young men will be held at the Y. M. C. A. at 8 o'clock this evening, conducted by Peter Keith, whose subject will be "Safety in the Streets." Caused Great Trouble.

Joshua, vii, 1-12.

The business men's noon meeting at the Down-Town Branch, Y. M. C. A., will be held by Mr. Smith will conduct the young men's meeting to-night at the Down-Town Branch, Y. M. C. A., 205 North Broadway.

The closing entertainment of the Railway Y. M. C. A. members' course for the season was given at the East St. Louis Building. Y. M. C. A. members' course for the season was of unusual interest. The music was directed by Mr. and Mrs. T. C. Hamilton of St. Louis, and Mr. and Mrs. Smith of Milwaukee. And at other institutions they had visited. There were a number of devices in the works, and the argument that they could not prevent the smoke was an idle and foolish waste of breath.

GEO. W. FISHER, Superintendent of the Fulton Iron-works, and the anti-smoke association, was in town yesterday. They are trying to prevent smoke that was certain and effectual, and that was supplying fuel to the factories at so low a cost that it was proposed to substitute it for coal. There was a practical and sure plan. With coal the fuel produced up to the grate and boiler surfaces. The boiler power should be in excess of the needs of the factory. Then the fire could be done gradually, and the smoke removed.

A locomotive engineer said that the smoke could not be prevented. There was no device that could be put to a furnace, would give perfect combustion.

FIELDING MANSFIELD

said: "Do the gentlemen want a device that will give him perfect combustion?"

"Yes, sir."

"This is but one lighted match and a box of gunpowder. If he wants to know anything of chemistry he knows that an explosion accompanies perfect combustion."

"The gentleman is quite correct," continued Mr. Mansfield. "I should remember that it will meet with a great deal of prejudice in any reference to myself. Many years ago I was the leader of a party of people to hold their meat in one hand while cutting it with a knife. That was no fault. The Englishmen wanted to Italy and there saw farms in use. They were charmed with the idea, and on their return home set about to introduce the manufacture of forks. The towns-people would not allow them to continue, holding that a fork was a dangerous weapon. Who will be so mad as to use a fork?"

"A locomotive engineer said that the smoke could not be prevented. There was no device that could be put to a furnace, would give perfect

combustion."

Two murders of the lowest type, both under 20 years of age, occurred in St. Louis yesterday, the first, Alexander Goldsborough, was sentenced for life to the penitentiary.

Dick Russell, a negro miner in Helena, Ala., was literally torn in pieces with another negro. The two men had arrested him, cutting one of them in the head with a knife. The other was cut in the head with a knife. The negro miners were good, and the argument that they could not prevent the smoke was an idle and foolish waste of breath.

"Yes, sir."

"This is but one lighted match and a box of gunpowder. If he wants to know anything of chemistry he knows that an explosion accompanies perfect combustion."

"The gentleman is quite correct," continued Mr. Mansfield. "I should remember that it will meet with a great deal of prejudice in any reference to myself. Many years ago I was the leader of a party of people to hold their meat in one hand while cutting it with a knife. That was no fault. The Englishmen wanted to Italy and there saw farms in use. They were charmed with the idea, and on their return home set about to introduce the manufacture of forks. The towns-people would not allow them to continue, holding that a fork was a dangerous weapon. Who will be so mad as to use a fork?"

"A locomotive engineer said that the smoke could not be prevented. There was no device that could be put to a furnace, would give perfect

combustion."

FIELDING MANSFIELD

said: "Do the gentlemen want a device that will give him perfect combustion?"

"Yes, sir."

AN ENORMOUS ENTERPRISE.

Three Millions of Dollars Invested in Attractions for the Public.

The vast amount of capital which is required to organize and conduct Barnum & Bailey's Greatest Show on Earth would, if invested in any ordinary good paying securities, provide an income upon which the great showmen could live like kings. It so happened that Mr. Barnum & Mr. Bailey have organized a business which provides employment for many people with amusement. To them it is more honor to be known as the greatest of showmen than to be loaded with political favors or to derive large profits. Each devotes their time and talents to the work of organizing and directing their entertainments. From all accounts the exhibitions which commence here on May 26th surpasses everything that has heretofore been presented in this country. In the only faint that seems to be found with it is that it is too large. Laclede and Compton avow that they will have some difficulty in fitting the great show into a city in itself. Over one hundred railway cars are required to transport the great show, and not a single night will the people be upon the pay roll of the treasurer.

No less than fifteen big shows are combined in this monster aggregation. There will be the greatest menagerie, the most complete menagerie, immense museum, an enormous horse fair, the united Paris and Olympic hippodrome, trained animals that include seals, tigers, elephants, zebras, lions, wolves, panthers, leopards, hyenas and bears. Jumbo, the world's largest elephant, and his big skeleton is a study in itself. Capt. Paul Boyton has the aquatic marvels of the world, the art treasures of the Orient, Moorish Caravan, tribes of wandering Bedouins and Arabs, Algerian dancing girls, Japanese, Chinese, Indian, etc. A score or more of hundred talented artists in some minor acts are all with Barnum & Bailey organization.

The greatest curiosity in connection with all this is how so much can be given with any profit to the managers. On Monday evening there were two performances, and on Tuesday evening there will be two performances. During the week two performances will be given each day. Tickets and reserved numbered chairs can be obtained at Weber's Music House, 209 North Fourth street.

NEW YORK TRAVEL.

No other line from St. Louis offers the combined advantages of low fare, fast time and first-class accommodations to so great a degree as the Ohio & Mississippi Railroad.

Travelers who travel by rail are saved by several dollars than by other lines running through cars. The limited express, leaving St. Louis daily at 8 p.m. with the finest Pullman bunks sleeping coaches, arrives in New York second morning. No extra charge by this line for riding on limited express trains. A first-class ticket entitles the passenger to first-class accommodations.

The O. & M. is the only line running a solid train to Cincinnati. For tickets and further information call at office, 101 and 103 North Fourth street, under Planters' House, or at Union Depot, St. Louis.

CHAMBERLAIN'S CRIMES.

The Brutal Murderer Certain to Be Lynched

of Death.

Mr. Nathan Straus, who will sail for Europe on Saturday morning, will travel to Milwaukee against Belle Hamlin in the terms offered by the owner to Harry Wilkes, Prince Wilkes and Oliver. The terms offered by Mr. Straus are good enough for him, and that is why he has agreed to repeat contest to his liking. He wants Kappel to lower his record, and he believes Kappel can do it. The trial date is set for June 1st.

Captain Jones, the fighter, is now in New York. He is still unengaged, and talks of going into business at Kansas City.

Bennett asserts that a number of persons who had been engaged in the bookmakers play to keep up a constant fire of insulting, sarcastic remarks regarding his playing.—Detroit Free Press.

ST. JOHN AND GAUDAU.

Mr. J. A. St. John was in the city on Tuesday on his way to New Orleans. He says Gaudau is getting over his back trouble, and that he looks forward to him to row a good race. He has not struck his last seven, and he has had some success in racing. As was barking a few exceptions, the bookmakers were only glad. It was a regular hard day for the bookmakers, but they did not offer very long odds against Rich mond. Five dollar tickets on the winner paid \$45, while an even price on the winner paid \$40. This shows that the bookmakers do better in the bookmakers play. The bookmakers do better in the bookmakers play.

McKay will be sharply contested as it takes money to win the race of \$4,000 was up.

AT JEROME PARK.

IMPORTANT EVENTS AT ITS MEETING WHICH BEGINS TUESDAY.

The City Handicap and the Probable Starters—New York Racing News and Gossip—St. John and Gaudau—Jockey McCarthy's Mishap—Sporting Matters—Base Ball Chat.

NEW YORK, May 26.—A prominent factor in early contests at Jerome Park was Mr. John Hunter. This gentleman is now president of the American Jockey Club and what he does not know about racing is scarcely worth telling. He has had long experience on the turf and is well qualified to direct the fortunes of the oldest and best known of Eastern clubs. The spring meeting at Jerome Park will begin on Tuesday, May 29, and stringent rules will govern the contests. The entries are numerous and the racing should be of the best. A prominent event on the opening day is the Jerome Handicap, a mile and a furlong in which horses of the stables of Linden, Kingston, Volante, Exile, Saxony, Richmond, George Oyster and Elkwood have engagements. Another prominent event is the Juvenile stakes for 3-year-olds, half a mile, sixty-five nominations, including Oregon and Little Barefoot. There will be six races on Wednesday, Decoration Day, the last of which is the handicap steeplechase. The popular Withers stakes will be run on Thursday, the 31st, and conspicuous in it are Sir Dixon, Now or Never, Tennessen, Kingfish and Larchmont. The meeting will end June 13. Jerome Park is so accessible to New Yorkers and the affection of the best people for it is so deeply rooted that it is safe to look to fashionable and enterprising men for success on the track in this blossoming month of May.

Two games at Sportsman's Park to-morrow, the Browns play Cleveland to-day and Monday.

Boston has struck out but twice in nineteen games.

This is Deacon White's twenty-second year in the major leagues.

We of the Southwest went through the experience of a hard winter and are now in the middle of a very severe one.

James Brouthers, Dan's brother, will probably play with the Buffaloes.

Greenwood, the suspended second baseman, is before the public.

Whithead of the California Stockton is said to be the coming third baseman.

Schmelz of Cincinnati says he fears the Athlete more than he does the Brooklyns.

Brockley is coveting first for the Whites in Brooklyn, and the money was on him. Dry Monopoly was strongly backed for the place, and had he not been some time in suspence.

As was barking a few exceptions, the bookmakers were only glad. It was a regular hard day for the bookmakers, but they did not offer very long odds against Rich mond.

Five dollar tickets on the winner paid \$45, while an even price on the winner paid \$40. This shows that the bookmakers do better in the bookmakers play.

Monopoly was strongly backed for the place, and had he not been some time in suspence.

As was barking a few exceptions, the bookmakers were only glad. It was a regular hard day for the bookmakers, but they did not offer very long odds against Rich mond.

Five dollar tickets on the winner paid \$45, while an even price on the winner paid \$40. This shows that the bookmakers do better in the bookmakers play.

The bookmakers do better in the bookmakers play.
